INTERNSHIP

Web Development Intern

Veritech Software Services

📅 March 2024 – June 2024   ⦿ Pune, India

- During my internship at Veritech Software Services, I had the opportunity to immerse myself in a dynamic and professional environment where I could apply and expand my technical skills. My role involved a variety of tasks that contributed to both my professional growth and the company's projects.
- This internship experience at Veritech Software Services significantly enhanced my software development abilities, project management skills, and understanding of client interactions. It provided a solid foundation for my future career in the software industry, equipping me with practical knowledge and experience in a real-world setting.

ACHIEVEMENTS

- Scored 5 Star in Java, Problem Solving on Hackerrank.
- Solved 250+ Coding Questions on Leetcode.

TECHNICAL SKILLS

- **Programming Language:**
  - Java
  - JavaScript
- **Web Development:**
  - HTML
  - CSS
  - Bootstrap, Tailwind CSS, ReactJS
- **Database:**
  - MySQL
- **Data Structures**

B.E. - Computer - 8.69 CGPA

Sinhgad Academy of Engineering Kondhwa, Pune

📅 July 2020 – June 2024

Higher Secondary - 70.62%

M. G. Jr. College of Science Karmala, Solapur

📅 2020

Secondary - 74.80%

K. A. J. Vidyalaya Karmala, Solapur

📅 2018

PROJECTS

Garbage Collection App

- Kotlin | Firebase
- We made a cool garbage collection app for Android using Kotlin and Firebase. Our small but mighty team of three worked together to create a user-friendly solution for managing waste. Designed and implemented an intuitive user interface, ensuring a positive user experience for residents and waste management authorities.

YT Media | Link

- ReactJS | CSS | API
- Spearheaded the development of a YT Media website with features mirroring YouTube's functionality. Leveraged React.js for front-end development, ensuring a modern and responsive user interface. Utilized Rapid API to fetch and display multimedia content, including videos, thumbnails, and metadata.

Movix | Link

- MERN (MongoDB, Express.js, React, and Node.js)
- Movix provides a comprehensive platform to explore and search for movies. Users can utilize the search bar to find specific movies, post comments under each movie, and add their favorite movies to a personal list. The application also includes robust login and signup functionalities, ensuring a secure and personalized user experience.

COLLEGE SUBJECTS

- Computer Network
- Database Management System
- Object Oriented Programming

CERTIFICATION

- Java Udemy
- Java Training IIT Bombay
- IBM SkillBuild Certificate

EXTRACURRICULAR

- ACES Member (Association of Computer Engineering Students)
